At a time when we are already used to the horror of the information on the media and the Internet, the world is suffering from a natural disaster: the explosion of the volcano has left behind devastation and death. Our main character and designer of Hack & Slash: The World of Chaos, Saint, wakes up in the middle of the chaos, only to discover that he is the last survivor of a city, and his only means of survival is to fight to survive. Saint is a young man, but he does not have an easy life. He is an orphan, and he lives in a shelter, where he has to face the hostility of a cruel Warden. He must get a weapon and a helmet in order to join the war in the wasteland. His weapons are hackable. By default, you have only one weapon. You can change between them by selecting your weapon slot. You have 3 slots, but you can only use one at the same time. The game is very much a hack and slash one, and it lets you control the characters with the Arrow Keys on your keyboard. You can turn and move with the Space bar. The cursor keys control the direction. The game supports Mac and Linux, with easy gamepad and keyboard setups. “Are the voters going to kick us out of office?” That was the topic of Wednesday night’s town hall-style meeting, in West
